

«White Cabine»

Technical requirements for the performance

Duration of the show: about 65-70 min

Set up time the first day - 12 hours,

Take down: 3 hours

Stage

- The preferable style of theatre is low stage with rising audience rows (500 spectators max).
- The performing area should be arranged as "Black Box" with min. three lines of curtains (wings).
- Additional curtains has to be prepared, in case of covering the gape between screen and one line of wing.
- We don't need dance floor, if the original colour of the stage is black (must be discussed).
- We use a lot of liquids (water, milk, wine) dropping on the floor during the show. In this case the floor must be protected from the liq (can be discussed). Also we need cleaning stuff and helpers to clean after the show.
- Minimal stage dimensions: 7 (width) x 10 (length) x 5 (height) meters.
- We use fire during the performance (see Ap.1)

Props and materials: (provided by organizers)

- 1 cigarette pack with white filter
- 2 packs of the chewing gum Huba-Buba
- 3 bottles red dry vine(the most cheap, but with cork),
- 1 red juice(to looked as wine)
- 1 package (1л) milk,

- 2 bottles beer(local popular mark)
